“Happy Easter”

SENIOR JOKES

Hard of Hearing
A concerned husband went to a doctor to talk about his wife. He says to the doctor, “Doctor, I think my wife is deaf because she never hears me the first time and always asks me to repeat things.”

“Well,” the doctor replied, “go home and tonight stand about 15 feet from her and say something to her. If she doesn’t reply move about 5 feet closer and say it again. Keep doing this so that we’ll get an idea about the severity of her deafness.”

Sure enough, the husband goes home and does exactly as instructed. He starts off about 15 feet from his wife in the kitchen as she is chopping some vegetables and says, “Honey, what’s for dinner?” He hears no response. He moves about 5 feet closer and asks again. No reply. He moves 5 feet closer. Still no reply. He gets fed up and moves right behind her, about an inch away, and asks again, “Honey, what’s for dinner?” She replies, “For the fourth time, vegetable stew!”

Why, Why, Why
• Why do we press harder on a remote control when we know the batteries are getting dead?
• Why do banks charge a fee on “insufficient funds” when they know there is not enough money?
• Why does someone believe you when you say there are four billion stars, but check when you say the paint is wet?
• Why do they use sterilized needles for death by lethal injection?
• If people evolved from apes, why are there still apes?
• Why is it that no matter what color bubble bath you use, the bubbles are always white?
• Why do people constantly return to the fridge with hopes that something new to eat will have materialized?
• Why is it that no plastic bag will open from the ed on your first try?
• In winter, why do we try to keep the house as warm as it was in summer when we complained about the heat?
• How come you never hear father-in-law jokes?
• How do hose dead bugs get into those enclosed light fixtures?
